

Tips & Tricks

How to Request a Registered Plan

You can request a plan that is registered or deposited in the Land Registry Office from the Plans, Surveys & Easements section of the Property Report.

To request a registered plan from a Property Report:

1. Select the **Plan, Surveys & Easements** from the grey banner at the top of the property report.
2. Select the Plan and then **Buy**.

The screenshot shows the 'Plans, Surveys & Easements' page. The main content area is divided into a map on the left and a list of plans on the right. The map shows a residential street layout with a blue highlighted area labeled 'PLAN: PLSUB'. The list of plans includes:

Year	Plan Type	Price	Action
1964	Legal Survey	\$500*	Buy
1962	PLR Reference Plan		Buy
1962	PLSUB Plan of Subdivision		Buy

A green box with the number '2' is overlaid on the 'Buy' button for the 1962 PLSUB Plan of Subdivision. Below the map, the 'Easements' section states: 'The Protect Your Boundaries™ Easement Indicator detects that there may be 1 easement on this property.'

3. Select **Purchase Image** in the first Property Details window.
4. Select **Add to Cart** or **Quick checkout** from the next Product Details window.
5. If you select **Quick checkout**, you will be directed to the checkout page where you can enter the payment information.
6. Select **Finalize Order** and you will be directed to the transaction confirmation page where you can view the Plan by selecting Download Products.
7. A copy of the Plan image will be sent to your email and there will also be a link to access it in the Downloads section in your Account
