You can search for a condo property using the Omni bar:

- 1. Enter the street address including the suite number:
  - Enter the suite, followed by the street name (i.e. 1001- 228 Queens Quay)
  - OR street address, followed by the suite (i.e. 228 Queens Quay 1001)
- If the address and suite is not shown in the matches, enter the street address only and select the
   Condominium Building address option or Search.

- 3. A Search Result window will appear on the left side of the map.
- 4. If the unit required is not shown in the Search Results, hover over the address for the building

5. In the **Condo Units** window **SELECT BY LEVEL** will show a list of the levels by letter or number. Select the level to expand and show the units.
