In addition to the home's school information, you'll also be able to show your clients:

- All of the parks and facilities within 20 minutes of the home including off-leash dog parks, playgrounds, swimming pools, tennis courts and more
- How easily they can get around with the home's nearest bus stop and subway station
- The peace of mind they'll get with the nearest hospital, police and fire stations
- How conveniently the home is located to the nearest grocery store, coffee shop, gym and more

Algorithms select only the best features surrounding each address to help you show the home in the best possible light.

With HoodQ's web format, you can click on any icon to display the underlying data. Clicking on a school, for example, will give you the location, phone number, links and more.

You can easily print your HoodQ Address Reports™. Or, share the link in an email or social media post to generate more interest in the property.

They are ideal for Open Houses, Agent Tours and any other sales situation where you can promote the address in addition to the property itself.
