Tips For Success

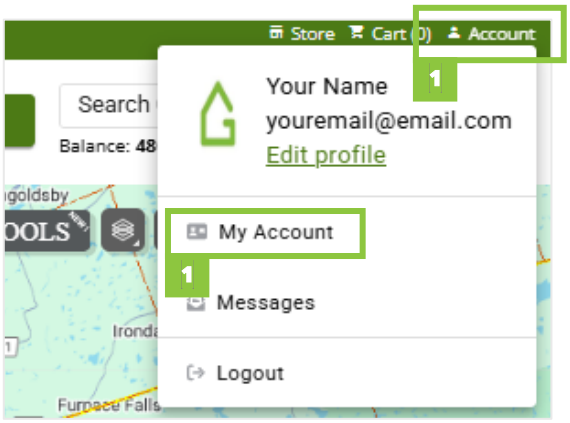

How to View Your Property Report Counter

Follow the steps below to review your report counter for your GeoWarehouse account.

1. Click **Account** in the top right corner of the window and select **My Account** from the dropdown.

2. On the right side of the page, locate the **Viewed Reports** tile.

3. Click **Details** to see information about the property reports that have been requested.

Important Notes

The property report counter is triggered when you access information for a specific property identified by its unique 9-digit ***Property Identification Number (PIN)****. You may view information about the same property in GeoWarehouse without increasing the counter again, as long as it is within* ***the same week*** *of the original request.*
